REPORT FROM MAJ. RAY. Affairs in Alaska Must Be Delicately Handled.

A report has been received at the War Department from Maj. Ray, commanding the northern miltiary district of Alaska. He arrived at St. Michaels on July 8, with his command in good health. He intended to send troops to Fort Egbert, the station on the boundary line near the Yukon in a few days. There were some disturbing reports from Cape Nome, where it was reported there were from 1,000 to 1,500 men, and friction about locations. He sent Capt Walker and twenty-five men to the scene.

The conditions here, he said, are very delicate and must be handled carefully to avoid collision. He says there should be a warning to people intending to go to Cape Nome. It is a place of great desolation and utterly destitute of timber, depending entirely upon importation for supplies of ter there in tents under existing conditions can only lead to disaster. It is of the ut-most importance, says Maj. Ray, to check people from going to Cape Nome unles-well prepared.

CONSUL OSEORN.

Acting Chief Justice. The State Department is as yet in ignor-

ance of the manner in which Luther Osborn, United States consul at Apia, came to be made acting chief justice, in view of the vigorous contention by Herr Solf, the president of the municipal council, that he was entitled to the succession. A long report on the proceedings of the Samoan commission has been submitted by Mr. Tripp, the United States commissioner and president of the commission, but, coming by mail, it is of date a month back, and does not bring the history of events down to the breach between Chief Justice Chambers and the

Record of Lend Ore Productions. During 1898 the United States attained a ecord in lead production, according to the eological survey report issued yesterday. by reaching a total mine product of 222,000 short tons. This is 10,000 tons more than in the previous year. The total production of marketable lead in the United States was 310,621 short tons.

THE BIDS ARE TOO HIGH

They Exceed the Amount of Appropriation

Available. Another Experience by the District

Commissioners Today in

Proposals.

By the receipt of bids by the District Commissioners today for constructing a north wing to the almshouse and for an additional building for the girls' reform school, the fact was again demonstrated that Congress in making appropriations for these buildings failed to provide sufficien funds for the purpose, the lowest bid received for each building exceeding the amount available for the work. As has been heretofore explained in The Star, the same state of affairs resulted in the case of the three pubic school buildings provided for in the appropriation act of last year, and also in the case of the two truck nouses provided for in the current appro-

priation bill. For the construction of the north wing of the almshouse the appropriation act pro-vided the sum of \$15,000, and the bids re-ceived today for erecting the bulling were as follows: Pavarini & Greer, \$15,000, with \$400 additional if cement mortar be used. John Hughes, jr., \$16,680; Landvoight & Kimmell, \$16,989, with \$500 additional if cement mortar be used; D. F. Mockabee \$17,000, and \$290 additional if cement mor tar be used, and Gleeson & Humphrey, \$18, 300, with \$200 additional if cement morta:

The sum of \$25,000 was provided for the additional building for the girls' reform school, and the bids received were as follows: N. H. Thomas, \$41,600; Edwin F. Jones, \$41,840; Pavarini & Greer. \$41,900; John Hughes, jr., \$43,100; W. E. Spier, \$45,700; Landvoight & Kimmell, \$48,797, and D. F. Mockabee, \$49,607. For supplying the steam-heating apparatus for this building the hide were as follows: Warren F. Biggs. the bids were as follows: Warren F. Biggs Steam Heating Company, \$3,291; Zellers & Co., \$3,439; Francis A. Williams, New York 83,745; Weaver & Hoffman, Baltimore, \$4,638.85; E. Rutzler, \$4,931, and Gillis & Geogheagan, \$5.000.

Bids to Be Rejected. From an examination of these bids it will be observed that for constructing the north wing to the almshouse the lowest bid exceeds the amount appropriated by \$900, and by \$1,300 if cement mortar be used. The ewest bid for constructing the additional building for the girls' reform school, added to the lowest bid for supplying the heating apparatus, amounts to \$44.891, or \$19.891 nore than the appropriation. The bids re-erved today for these two buildings wil be rejected, it is stated, and new ones in vited by the Commissioners. Meantime, it is probable that the plans on which the bids received today were based will be altered for the purpose of enabling bidders in the second competition to come within in the second competition to come within the amounts, respectively, available for the purpose. If the Commissioners are not suc-cessful in that they will, it is understood, report the matter to Congress and ask for ncreased appropriations, as they intend to to in the case of the three public schools provided for in the appropriation act of last

Other bids received by the Commissioners oday were as follows: For repairing and changing the plumbing in the Central and Colored High School buildings—E. J. Hau-nan, \$5,595, and S. S. Shedd & Bro., \$5,890, for certain character of material, and \$6,007 for another For grading 22d and 24th streets, Brookland-Matthew Myers, 32 ents per cubic yard: Martin McNan ents; E. G. CADETS DENY RACE PERSECUTION. oung Hebrew Resigned From West Point for Personal Reasons.

The New York Herald of today says: Officers and cadets at the United States Military Academy at West Point deny that there was any race persecution connected with the resignation of Sigmund Selig Alert of Lancaster, Pa., or those of two other young Hebrews.

Mr. Albert left the institution, it is asserted, because he and another Pennsylvanian, named Alvord, his companion, were personally objectionable to the members of their class. Mr. Alvord was not a Hebrew, Louis Sonneborn Hutzler of Baltimore, one of the young men mentioned in vesterday's ecause he was deficient in his studies, and Charles Lionel Apfel of this city was per-mitted to resign for reasons which the au-

Mr. Albert entered the academy on July 20, 1898. He underwent the customary at-tentions from the upper classmen. This treatment was no different from that of all he other "plebes." Many times the members of his class remonstrated with him because he did not give due attention to policing" his tent.

Every cadet is expected to register himself at the bath house as having performed horough ablutions once a week. Mr. Albert's classmates allege that he on several occasions merely registered. The cadets objected to this, one reason being that Mr. Albert's registration gave a wrong impression

Mr. Albert challenged another cadet to a fight not long since, and it is alleged that he struck his antagonist before "time" was called. This was a distinct violation of the cadet code of ethics.

eadet code of ethics.

By the unwritten rule of the Academy, the "plebes," after they have become yearlings, are considered fit to associate with the upper classmen and are supposed to eliminate from their ranks all who have eliminate from their ranks and the given offense. So after June 20 of this year the yearlings proceeded to eliminate Mr. the yearlings proceeded to eliminate Mr. Albert. They refused to speak to him. No eadet would be his partner at the dancing class. He was completely ignored on every

The young man wrote to his father, who arrived at West Point last Monday, and after a consultation with officers of the Academy reached the conclusion that it would be useless for his son to continue his military course. The young man presented his resignation to Col. Mills, saying that he had cencluded for personal reasons to reire from a military career.

Mr. Alvord, who was his tent mate, had resigned two weeks before. The elder Mr. Albert gave his approval and consent to his son's :esignation, as is required. Two Hebrews still in the class stand well in their studies and are exceedingly popu-lar with their clas mates. A dispatch to the Herald from Washington says that an ex-amiration of the records in the War Department fails to show that the matter of

eligion was ever considered in the case o Mr. Albert. Charles L. Apfel of No. 169 Rivington street, yesterday said race prejudice had nothing to do with his resignation or that

of young Albert.
"We were all of us subjected to hazing."
he said, "and without it the Academy would lose standing. That determines the manlitess of cadets. All the cadets are gentle nen, and for that reason it seemed to me that we three Hebrews escaped more easily than the others, lest the upper classmen might think men had been persecuted on account of their religion."

ANIMATED EGGS OF INSECTS.

Strange Tale From California of a Re markable Phenomenon.

A dispatch from Redding, Cal., says: Sulphur smoke and arsenical fumes by the smelting operations of the Mountain Copper Company in Shasta county are blamed for a strange phenomenon in plant and insect life here. It has just been discovered that the leaves of the oak trees are swarming with embryonic life. Masses of minute eggs adhere to the underside of the leaf, and as they advance toward maturity drop to the ground.

By holding an oak twig containing these

eggs to the ear a crackling sound may be heard like the spitting of electric sparks. The shell contains a tiny grub working for release, but what shape it takes upon Company's Extract

Secretary Root took charge of the War Department; it was disclosed that extra pay allowances had been made to Gen. Brooke and certain other American officers in Havana, out of Guban revenues, for the maintenance of their residences, and protests were filed from other American of-ficers stationed in Cuba against the discrimination against them. Filipino insurgents attacked Calamba, which was captured last week, but were repulsed with loss; there was slight fighting on the islands of Negros and Cebu; the transport Senator arrived at San Francisco from Manila with the officers and men of the 10th Pennsyl-vania Regiment, and the hospital ship Relief arrived with sick soldiers. Gen. Lud-low at Havana suppressed the newspaper El Reconcentrado for its Scurrility in commenting upon the political situation. Rear Admiral Sampson instituted proceedings to recover prize money for himself and crews for the capture of the Spanish cruiser Maria Theresa at Santiago. The Iowa re-publicans renominated Gov. Shaw and declared in favor of the single gold standard. The Maryland democrats nominated Representative John Walter Smith for governor and adopted a platform silent on the money question. The independent democratic movement in Kentucky began to assume definite shape. Ex-Secretary Alger was welcomed at Detroit upon his return home from Washington by a very large crowd;

were taken to protect the rights of citizens in the courts to offset the effect of the boy-cott. Two persons were killed in a railroad accident near Erie, Pa. Foreign Affairs. The international peace conference held

speeches were made by Gov. Pingree and the former Secretary indicating a wide dif-ference of opinion as to the treatment of

Gen. Alger by the administration. Disor-ders again occurred in Cleveland as a re-sult of the street railway strike, a car be-

ing dynamited; a boycott was instituted by

the strikers against all persons patronizing the lines of the offending corporation; steps

its final session; the czar was quoted in a semi-official publication at St. Petersburg as being satisfied with the results of the conference. The report of the Samoan joint high commission was prematurely published; important recommendations were advanced; it was reported that United States Consul General Osborn had been named as acting chief justice for Samoa, greatly to the pleasure of the Germans resident there. The Belgian cabinet resigned after a defeat on electoral reform propositions. Gens. Toral and Pareja were tried by court-martial at Madrid for having surrendered San-tiago to the Americans. In the house of commons Mr. Chamberlain expressed the opinion that England allowed too many constitutional powers to her West Indian colonies. Sir Julian Pauncefote, ambassador to the United States and principal Eng-lish delegate to the peace conference, was elevated to the peerage, with the title of Lord Pauncefote. Vice President Figurero assumed the presidency of San Domingo; two of the assassins of Heureaux were cap-fured and shot; a revolt in favor of Univertured and shot; a revolt in favor of Jiminez was started; Jiminez remained in Havana and pronounced his intention to proceed with a campaign of revolution. Disorders occurred in Hayti; the American legation at Port au Prince was invaded by Haytian officers and a prisoner was taken away; upon the strong representation of the American minister the government released the man. Indians in the Yaqui valley, Mexico, revolted against the government; several severe battles were fought, with heavy losses on the Mexican side. Mr. William Weller es on the Mexican side. Mr. William Wal-dorf Astor renounced in London his Amer-ican citizenship and swore allegiance to the Queen of England, Gen. Guzman Blanco, former president of Venezuela, died in

In the District. After a prolonged hearing of charges brought against the street-sweeping contractors, Daggett & Dugan, by Superintendent Stutler, to the effect that they had violated their new contract in various pariculars, the Commissioners decided that, although the charges had in the main been proved, they would not abrogate the con-tract, but would permit the contractors to proceed, with the understanding that if the specifications were not fully observed in the future the contract would be immediate ately set aside. The reception committee for the Dewey welcome was named. A severe wind, rain and hail storm swept over the city Wednesday afternoon, unroofing houses and blowing down trees and tele graph poles and doing other damage. seph Hurley, a firman on the P. W. and B. railroad, was killed by falling from an engine in the New Jersey avenue yards. Charles Brown, a colored driver, was killed Pennsylvania avenue n a runaway on Pennsylvania avenue. Preston Jones and Victor Commins were drowned in the river. Edward Oldham, an advertising solicitor, unsuccessfully attempted suicide. Lemuel Fisher, colored. was killed by a Brightwood car in the sub-urbs; a coroner's jury found that the car, used for repairing the tracks, was not equipped with a front fender, as required by the law. Among those who died was Mrs. Kate Chase Sprague, daughter of the

late Chief Justice Salmon P. Chase CATTLE FOR CUBA.

Question Raised as to the Necessary Restrictions.

Mr. Quesada and Mr. Rubens were consultation with the acting secretary of state for some time yesterday, discussing the details of the admission of cattle to Cuba. There was some talk about securing a reduction on some classes of agricultural implements in the interest of Cuban farmers, but nothing definite was determined

There is another hitch in the issue of the order for the admission of 50,000 head of cattle duty free to Cuba, as decided upon by the cabinet some weeks ago. The purpose of the order was to meet the deple tion of stock caused by the military raids during the insurrection. When first framed it was proposed to limit the admission to cattle from the United States. There was objection to this, however, on the ground that it would be a clear tariff discrimination against foreign countries. The order was therefore broadened so as

to include high-bred cattle from any coun-

try.
The limitation to high-bred cattle was made at the instance of the Agricultural Department, which held that in sending stock to Cuba only the best obtainable should be had. But against this, however, it is being urged that the high-bred Jerseys, Holsteins and other grades of cattle and stock are entirely out of place in Cuba, as the conditions there require a small, hardy animal, on the order of the ponies in use in the tropics. This is the question now being considered at much length, and in the meantime the order itself is held up. Should the condition of high-bred cattle be omitted the stock of Mexico and Honduras, said to be particularly suited to Cuba, will be admitted under the order.

Court of Inquiry Ordered. The Navy Department has ordered a court of inquiry on the collision between the dispatch boat Dolphin and the ferry boat New York in East river. The board is ordered to assemble in Boston on the 8th instant, and Capt. Wadleigh is designated as presiding officer.

H. Rap-ley and the latter by Mr. Stellwagen. Mr. E. Southard Parker, chairman of the Mr. E. Southard Parker, chairman of the committee on finance, has received communications from many of the members of his committee, all expressing a willingness to serve, and also stating that they would contribute liberally to the reception fund. The indications are that a fund sufficient to make the reception probably the most magnificent ever seen in the national capital will be readily secured. Mr. Parker feels sure there will be a bountiful inflow of money, but urges that contributions should be turned over at as early a date as possible, that there may be no delay and no apprehension.

The Admiral's Homeward Trip. Although Admiral Dewey has so far not yet furnished the Navy Department with an exact itinerary of his homeward voyage on the Olympia, the officials at the depart-

ment do not hesitate to express the belief that he spent at Trieste the full period of time originally allotted to the port, and reports to the contrary are said to be inspired by a spirit of mischief. The reports indicate that the admiral was accorded the most distinguished consideration by the Austrian officials during the entire time he stayed at Trieste.

As for the statement accredited to the French paper to the effect that the Aus-French paper to the effect that the Austrian government made any demand upon the admiral to confirm or deny his alleged statement to the effect that our next war would be with Germany the State Department officials very promptly killed that canard by pointing out that it would be a glaring breach of the diplomatic proprieties, of which it could not for a moment be pre-sumed that Austria would be guilty, to communicate on a diplomatic subject with a United States naval officer directly and outside of the lawful channels. It would preover, be a matter of complaint should Austria have addressed Admiral Dewey on a matter relating entirely to Germany and THE COURTS.

Oliver Hyde, thirty-one years old, em-

oloyed as a waiter in a lunch room on E street northwest, was arrested this forenoon by Policeman John Catts of the first precinct station. He was locked up on a charge of having taken \$41.20 belonging to Mrs. Caroline Brossey. The woman, who is stopping at the Hotel Johnson, went into the lunch room and got a lunch, and when she left she forgot to pick up her pocket book that she had placed on the table. Before leaving the room she made inquiries. but the waiters, it is alleged, denied having seen the pocket book. Complaint was made to the police at the first precinct, and Po-liceman Catts arrested Hyde, who had waited on Mrs. Brossey. When searched at the police station the pocket book with the money in it was found on Hyde. He claimed that he picked up the pocket book from the floor. An explanation in court Monday morning will be required. The case will be heard by Judge Mills.
